## The 2016 Vintage Military Bolt Action Rifle (ViMBAR) Match

<http://vimbar.com>

The idea of shooting ViMBAR is to experience the capabilities these old rifles had on the battlefield. The development and use of the military bolt action rifles using metallic cartridges spans from circa mid eighteenth sixties to 1946 when the last newly developed military bolt action rifle was adopted. Of course, these guns provided excellent service in WWII and long after. During this time many guns were produced to supply the armies of the world. Some were better than the others, but most had capabilities that are amazing still today.

### **GUNS & Equipment**

Any military bolt-action rifle in as-issued, battle-ready condition, with original as-issued iron sights, and chambered for its original military cartridge may be used. Ammunition may be loaded with soft nosed, hollow point, or Full Metal Jacket bullets. No armor piercing, or tracer ammunition will be allowed. Except for the offhand and rapid-fire stage, any tactical position may be used for shooting. Sandbags, field packs, helmets, etc. may be used as a rest. A mat or tarp, elbow pads, and recoil-shield may also be used for shooting the fixed target match. There are handgun scenarios at some stages of the walkabout match. Any military pistol or DA revolver in use prior to 1960 and in as issued condition can be used. Wearing of period uniforms is encouraged to enhance the experience, but is not required.

There will be two matches; the fixed target match, and the walkabout match.

The course of fire for the fixed target match will be 40 shots for score, 5 shots each at 200 (offhand), 400, 500, 600, 700, and 800 yards, and 10 shots at 300yds (rapid-fire, kneeling or sitting in 1.5 min).

### **Targets**

Steel plates suspended on chains – 200yds 18" x 24"

20" x 30" (W x H)  
300, 400, 500 yards

40" x 36" (W x H)  
600, 700 yards

60" x 45" (W x H)  
800 yards

The walkabout match will consist of an unlimited number of shots in a limited amount of time (35-55sec) at various targets at unknown distances. The shooter will be required to carry all equipment on a short (less than 1 mile) hike, and engage targets at specific firing points.

The match will be held at the Golden Spike Buffalo Range on:

**April 16<sup>th</sup>**

**Entries are limited to 40 shooters.** The Match will begin **promptly at 9:00** with practice starting as soon as it is light enough to shoot. Fee for the match will be \$30.00 (\$25/day if shot in conjunction with the ViMSAR match on Sunday) (Senior discount for shooters over 62 years old) with trophies for the top three competitors in the match aggregate. The range will be open for practice the Friday before the match.

Send entry form or contact either:

The **Golden Spike Buffalo Range** is adjacent to the Golden Spike National Historic Site in Promontory, Utah. The range can be reached from either I-15 North of Ogden, Utah, or I-84 West of Tremonton, Utah.

To get to the **Golden Spike Buffalo Range**, from I-15 take Exit 365, State Road 83, west to Corinne, then follow the signs to ATK and the Golden Spike National Historic Site. From I-84 take Exit 26, south to Howell Valley and follow the signs to ATK and the GSNHS. Once at the GSNHS turn left on the first service road past the railroad tracks with the “Authorized Vehicles Only” sign. There will also be small white buffalo signs directing you. Turn right up the driveway to the rangers’ house, then turn left just past the embankment surrounding the locomotive storage area. Go through the gate and follow the road to the right. Pass through the gate in the next fence and immediately turn left up the trail to the firing line at the top of the first small ridge.
